Re: Hexcel Corporation
205 South Main Street
Lodi Borough, Bergen County
ISRA Case No. 86009
Our File No. 03597.17140

Dear Joe:

It was good to speak with you on Tuesday, January 4, 1994. Pursuant to your request, I have set forth herein the cost estimates we have for the work proposed in the agenda previously forwarded to you. Before doing so, however, I should point out that a plan of reorganization has not yet been approved for Hexcel Corporation and the activities I have suggested in the agenda are those which we intend to propose to management and the bankruptcy court for approval. In so doing, we attempted to obtain the "best bang for the buck." Accordingly, I must emphasize that the proposal does require confirmation and the cost estimates I am providing are our current best thinking.

The monthly cost for DNAPL/LNAPL monitoring is approximately \$720 per month. The DNAPL/LNAPL recovery will cost approximately \$704 per month. In addition, we expect to have a one-time DNAPL/LNAPL disposal cost of approximately \$7,725. The wastewater treatment system will cost

Our File No. 03597.17140

approximately \$2,240 per month to operate. Discharge sampling will cost approximately \$150 per month. Wastewater disposal will cost approximately \$3,400 per month. We also expect there will be a one-time spent carbon disposal cost of approximately \$12,005 and a one-time sampling requirement at a cost of approximately \$1,900. In addition, we expect project management to cost approximately \$656 per month and other expenses \$1,000 per month.

I hope the above cost estimates are useful. We look forward to meeting with you and your colleagues tomorrow.

Very truly yours,

Edward A. Hogan
